About the FDP

Faculty Development Program (FDP) is a tool for fostering knowledge and professional skills of faculty members in order to improve their performance in education, research and administration as well as augmenting organizational capabilities and culture.

Such programs not only helps the faculty members in learning & developing Instructional capabilities in contemporary educational pedagogy but also in their professional development with better understanding of responsibilities as educators, researchers and administrators.

In this regard, the purpose of this FDP is to provide an opportunity for academics to develop administrative and leadership skills to manage human as well as financial resources effectively in order to building and running an efficient and energized institution.

About Rajkiya Engineering College Mainpuri (RECM)

RECM is dedicated to providing affordable and quality education in the field of Engineering & Technology. At present, it is offering undergraduate courses in Civil, Mechanical, Electrical, and Computer Science & Engineering. Being a research center, Institute is also offering PhD in various engineering disciplines. Established by the Government of Uttar Pradesh in 2015, the college is AICTE approved and affiliated to Dr. APJ Abdul Kalam Technical University (AKTU) Lucknow, U.P.

Adhering to the norms of AICTE, RECM boasts a modern, environmentally conscious campus, featuring well-designed structures with advanced laboratories, and a well-stocked Knowledge Library Center with physical books and digital resources. This environment nurtures a stimulating ambiance for learning and growth among students.
