### Memo

In pursuance of the office order of the District Magistrate, Mainpuri (Ref. No. 23/ST; dated April 23, 2026), and in light of the observations made during his recent visit to the Institute, there is a need for immediate corrective action to address the issues faced by students and to improve the effectiveness of the solutions provided by the concerned authorities entrusted with these responsibilities.

A proactive approach to identifying and resolving issues at an early stage—before they escalate into major problems—is essential.

Accordingly, all HoDs, In-charges, Coordinators, and Deans are hereby requested to adopt a proactive approach and take necessary measures to make the Institute campus conducive to learning, comfortable for living and working, and, above all, clean and green.
